

ENITH GICELA VARGAS VARGAS

Full-Stack Developer | Java | Data Analyst | AI
ingegvargas@gmail.com | [LinkedIn](#) | [Portafolio](#)
Bogotá, Colombia

PROFESSIONAL SUMMARY

Java Full-Stack Developer with backend and frontend experience, including REST APIs with Java and Spring Boot and interfaces with JavaScript, HTML, and CSS. Civil Engineer and Environmental Specialist with experience in infrastructure project management, technical auditing, and regulatory compliance. Participated in LLM evaluation and optimization projects, strengthening skills in logic, data validation, and complex problem-solving. Brings analytical thinking, structured workflows, and adaptability across technology and engineering environments.

WORK EXPERIENCE

LLM Trainer (Freelance)

May 2024 – Mar 2026

- Improved consistency and response quality in language models through prompt and dataset design and validation.
- Designed structured evaluation criteria that enabled reproducible results in technical tasks.
- Applied analytical and debugging logic to identify output errors and optimize results.
- Implemented responsible AI practices, helping reduce bias in training data.

Civil Engineer (Freelance)

Feb 2015 – Mar 2026

- Planned and supervised construction and infrastructure projects.
- Oversaw technical, administrative, and environmental compliance.
- Analyzed technical and financial information to optimize project decision-making.

Municipal Controller – San Eduardo Town Hall, Boyacá

Aug 2019 – Dec 2019

- Performed technical, administrative, and financial audits for water treatment plant maintenance contracts.

Municipal Controller – Jericó Town Hall, Boyacá

Dec 2017 – Feb 2018

- Audited rural aqueduct rehabilitation projects, evaluating technical, financial, and administrative compliance.

Inventory Inspector – Consorcio Intervial SV

Oct 2016 – Feb 2017

- Inspected urban road maintenance projects with technical, environmental, administrative, and financial auditing.

Cadastre Coordinator – EMSER E.S.P

Jun 2015 – Dec 2016

- Coordinated the Aqueduct Micro-Metering Implementation Plan in Líbano, Tolima.
- Led data collection, report generation, and compliance documentation.

KEY PROJECTS

Style Factory | Generation Colombia | Full-Stack Developer

Feb 2026 – Jun 2026

- Developed a modular web application for service and booking management using JavaScript, HTML, CSS, and Bootstrap.
- Implemented user authentication, session management, an administrative dashboard, and dynamic loading of reusable components.

Aurelion | Guayerd | Developer

Jul 2025 – Dec 2025

- Developed an end-to-end application with business logic, exploratory analysis, and predictive models for data processing and visualization.
- Implemented clustering techniques and automated documentation within the data pipeline.

EDUCATION

Generation Colombia

Full-Stack Java Development

Feb 2026 – Jun 2026

Guayerd / IBM

Fundamentals of Artificial Intelligence and Data Analytics

Jul 2025 – Dec 2025

Universidad Pedagógica y Tecnológica de Colombia

Environmental Engineering Specialist

Civil Engineering

Jun 2014 - Jun 2015

Aug 2008 - Dec 2014

SKILLS

Java | Spring Boot | Python | APIs REST | JavaScript | Node.js | HTML | CSS | Bootstrap | SQL | Git
| GitHub | Power BI | Looker Studio | Excel

LANGUAGES

Spanish: Native | English: B2
