

ENITH GICELA VARGAS VARGAS

Full-Stack Developer | Java | Data Analyst | AI
+57-3229088520 | ingegvargas@gmail.com | [LinkedIn](#) | [Portafolio](#)
Bogotá, Colombia

PROFESSIONAL SUMMARY

Java Full-Stack Developer with knowledge of backend and frontend development, including the construction of REST APIs using Java and Spring Boot, as well as interface development with JavaScript, HTML, and CSS. Participated in technology projects such as the evaluation and optimization of Large Language Models (LLMs), strengthening skills in logic, data validation, and complex problem-solving. Brings analytical thinking, the ability to structure solutions, and adaptability in technology-driven environments.

WORK EXPERIENCE

LLM Trainer (Freelance)

May 2024 – Mar 2026

- Improved consistency and response quality in language models through prompt and dataset design and validation.
- Designed structured evaluation criteria that enabled reproducible results in technical tasks.
- Applied analytical and debugging logic to identify output errors and optimize results.
- Implemented responsible AI practices, helping reduce bias in training data.

Civil Engineer (Freelance)

Feb 2015 – Mar 2026

- Managed infrastructure projects, ensuring technical, regulatory, and quality compliance.
- Analyzed technical and financial information to optimize project decision-making.
- Developed transferable skills for software development, including logical thinking, process organization, and complex problem-solving.

KEY PROJECTS

Style Factory | Generation Colombia | Full-Stack Developer

Feb 2026 – Jun 2026

- Developed a modular web application for service and booking management using JavaScript, HTML, CSS, and Bootstrap.
- Implemented user authentication, session management, an administrative dashboard, and dynamic loading of reusable components.

Aurelion | Guayerd | Developer

Jul 2025 – Dec 2025

- Developed an end-to-end application with business logic, exploratory analysis, and predictive models for data processing and visualization.
- Implemented clustering techniques and automated documentation within the data pipeline.

EDUCATION

Generation Colombia

Full-Stack Java Development

Feb 2026 – Jun 2026

Guayerd / IBM

Fundamentals of Artificial Intelligence and Data Analytics

Jul 2025 – Dec 2025

Universidad Pedagógica y Tecnológica de Colombia

Civil Engineering

Dec 2014

SKILLS

Java | Spring Boot | Python | APIs REST | JavaScript | Node.js | HTML | CSS | Bootstrap | SQL | Git | GitHub | Power BI | Looker Studio | Excel

LANGUAGES

Spanish: Native | English: B2
